

Select Child Care FIRE DRILL

FIRE DRILL

In the event of a fire this would be the procedure we will follow: -

Gather the children in the hall, if possible

Collect register with contact numbers (as long as this does not compromise the safe evacuation of the premises)

Leave via the nearest exit

Phone the Fire Brigade

Contact parents

The house has smoke detectors, which are tested on a regular basis, and it is also a requirement of registration as childminders. A fire blanket is in the kitchen to deal with a small fire or to wrap someone in, if necessary.

All windows can be opened for escape, Front door to road, Rear patio doors to garden, Kitchen door to entry, Exit into rear field if needed.

The methods of evacuation are practised and reviewed on a regular basis, especially when a new child joins the setting.
